

Collaborating with

FRIENDS OF THE EVERGLADES

By: Zamantha Zacarias

Around 6-8 weeks ago, we partnered with the organization Friends of the Everglades. We made a video featuring students from Royal Palm Elementary talking about the origin of the organization. In the video, students talked about how Marjory Stoneman Douglas (the founder) impacted the Everglades with her incredible work. This partnership has been valuable and we hope to learn more about the Everglades with them.
